

Environmental Statement

Forest City Trading Group, LLC is one of the largest lumber and building materials wholesale organizations in North America. Forest City Trading Group, LLC and its subsidiary companies are dedicated to building and enhancing professionalism within their industry sphere and providing a wide range of products and information to the customers they serve. We recognize that leadership in the forest products industry carries a responsibility to the environment and, in particular, the world's forests. Forest City Trading Group, LLC our subsidiary companies actively support those suppliers who use sustainable forest management practices that promote forest sustainability and result in long-term environmental, social, and economic benefit.

Forest City Trading Group, LLC and its subsidiary companies endorse the significant efforts being made within the forest products industry to assuage the public's environmental concerns through the development and implementation of scientifically based forest products certification programs. We view the wise and prudent use of renewable resources as a cornerstone to the world's long term building products needs, and support those firms and organizations that embrace these practices. We define certified forest products as those materials that originate in forests that have been independently audited and certified as well managed by a credible independent third party. We intend to increase the purchase and sale of third party certified forest products when price and availability allow.

In accordance with the above policy, it is our intent to inform and educate our employees, customers and suppliers on those organizations that are developing and promoting forest products certification programs. Accordingly, we recognize that the Sustainable Forestry Initiative (SFI), Forest Stewardship Council (FSC), International Organization for Standardization (ISO), Canadian Standards Association (CSA) as some of the leading programs using sound, scientifically based management principles in promoting sustainable forestry practices.

Forest City Trading Group, LLC and its subsidiary companies promote implementation of and compliance with constructive logging laws in all global timber-producing regions. We categorically reject illegal logging practices in any part of the timber-producing world and support the establishment of laws and regulations that protect legal and sustainable trade in forest products. We urge all levels of government to enforce laws established to prevent environmental destruction caused by illegal logging.

As an industry leader, Forest City Trading Group, LLC and its subsidiary companies is committed to leveraging its influence in the marketplace to promote the conservation and protection of natural resources. Wood products from our forests provide vital benefits and are widely used in all facets of residential and commercial construction, furnishings and many other applications. We recognize and promote wood as the only all-natural, biodegradable, renewable resource that will provide for our benefit today and for our children tomorrow.
